# ABOUT US

A man is not a man who doesn't know the value of his words.

Saintwears was founded on the fundamental values and principles of respect, integrity, transparency, commitment, hard work and humbleness.

Our expert knowledge and experience in business comes not from books but from years of experience and sometimes from making the wrong decisions which we have learnt from and which have made us wiser and stronger than ever.

Saintwears is a no nonsense company. Our main focus is on our clients getting to know and fully understand their requirements.

Utilising our knowledge of the best supply sources from fabrics to printing techniques and garment accessories, we work with our suppliers to obtain the best prices to pass onto our customers without compromising on quality.

Knowing the value of a lasting customer relationships we strive to achieve 100% perfection to obtain your trust and to build a bigger and better future together with Saintwears.

We sincerely hope that you give us the opportunity to earn your business and your trust so we can prove the integrity of our commitment towards you.

Thanks

# OUR PERSPECTIVE OF SUSTAINABILITY

ENSURING BETTER  
HEALTH CONDITIONS OF  
THE ENVIRONMENT AND  
THE WORKERS

Sustainability issues are in the international spotlight in both the apparel and textile sectors. It's essential to maintain the environmental and social sustainability throughout the supply chain.

- ✔ We work to achieve social, environmental and economic benefits and make the industry sustainable in the long run.
- ✔ We emphasize sustainable green industrialization and sustainable materials that come from eco friendly resources
- ✔ We focus on Eco-friendly alternatives to traditional production
- ✔ We work to ensure workplace safety
- ✔ Our goal is to increase resource efficiency, reduce wastage and ensure better health conditions of the wearers and the workers

ESPORTIA

# RELIABILITY

Reliability and sustainability are considerably different concepts but are important to be conducted in accordance with one another. In order for an operation to become reliable, it must be sustainable. If the operation does not have the pillars of sustainability in place, it cannot be called reliable
